

# Adding Flash Content to Dashboards

Instructor: Adrian Song

## Tutorial Summary

From version 7.5 onwards users are able to implement Flash content created using Adobe Flex in dashboards using Elixir Repertoire. This example illustrates how pre-designed Flash content is implemented and how data is presented.

## Tutorial Artifacts

The tutorial [Ex\\_Dashboard\\_SWF.zip](#) file consists of the reference documentation found in the "workspace" directory plus the required assets to carry out the self tutorial.
