

SubReporting Exercise

Instructor: Adrian Song

Tutorial Summary

Targeted at intermediate users, this tutorial document will cover the following aspects of implementing a sub report within a report template:

1. Report template creation
2. Mapping a data source to the report template
3. Adding sections to a report template
4. Creating a composite data source
5. Creating a sub report template
6. Implementing a parameter and passing it to the template level
7. Adding the composite data source to the sub report
8. Including the sub report template within the main report

The screenshot shows a report viewer window titled "R: Glist". The report content is as follows:

Elixir Report

ID	1001
