

Ad Hoc Server Samples

Here is a set of working samples that is available for demos and illustrations.

1. Download <http://www.elixirtech.com/~adrian/derby/foodmart-derby.zip> and unzip the derby files into `<ERS>\RepertoireServer\foodmart-derby`.
2. Download <http://www.elixirtech.com/~john/Ad-Hoc-Designer.rar> (containing folder - Ad Hoc Designer) and merge this folder with your regular ElixirSamples.

Notes:

1. The default username and password to login to Ad Hoc Server is as follows:
 - Username:john,
 - Password:elixirtech
2. The cube home directory is set to `<ERS>\ER_Exercises\Ad-Hoc-Designer\Ad-Hoc-Cube`
3. The samples should now be up and running.
