Memory Allocation

Increasing the Java HeapSpace for Remote Designer

The following steps allow a user to increase the Java HeapSpace for Remote Designer -

1. Edit *\RepertoireServer\config\remote.jnlp.template*
2. Amend the following code -

   ```
   <resources>
   <j2se version="1.5+"/>
   <jar href="RepertoireRemote.jar"/>
   </resources>
   ```

to

   ```
   <resources>
   <j2se version="1.5+" initial-heap-size="256m" max-heap-size="512m"/>
   <jar href="RepertoireRemote.jar"/>
   ```
