

Alternating Colour for Records in the Detail Band

This script allows the data to be presented with alternating background colors for the records. Use the following script in the individual band:

Report:On Render Begin -

```
var Count= 1;
```

Detail:On Render Begin -

```
if (Count%2==1)
{
    setBackgroundColor("rgb(255,153,153)");
}
else
{
    setBackgroundColor("rgb(122,191,237,77)");
}
Count++;
```
